**Subject:** HAMP milestone summary

Hello Roberto,

I've attached a summary of the HAMP funding commitments from EPA and IHS, as well as critical deadlines for securing a full funding package for HAMP construction. **Please do not distribute this outside of EPA.**

On my call today I learned that the chairman plans to write a letter to FMCV to gain their support for the MOA. For your reference I've also included letters from 2015 relating to the EA clearance where both Ivan and the traditional leader expressed support for the HAMP.

I've also attached a timeline that the HUC developed to manage the project. The construction timeline is likely not realistic however the pre-funding milestones should be more accurate.

Bruce Macler is developing a Hopi-specific FAQ for arsenic health effects. I hope to be able to share that with you well in advance of your trip.

Please let me know if you have any questions. Thanks,

Emmanuelle
